building and a clinker building in the southeastern corner of the field, probably for quartering purposes. A radio truck and four tank trucks were parked at the take-off point. 25X1 25X1 The remains of a crashed plane, which was of the same type as the aircraft stationed at the field, was seen just east of Plauer Lake. The number 17 was identified on the plane which was guarded by a sentry. Comment. The airfield is still occupied by a ground attack regiment 25X1A * equipped with about 60 IL-10s and some PO-2s. Comment. For location of barracks installation, see Annex. The 25X1A barracks installation is occupied by the flying personnel and the personnel of the pertaining ground unit. Annex: 1 - sketch on ditto.
